

## **General Requirements (Section 6.07)**

A. Maintenance: All signs shall be maintained in conformance with code, kept in good condition and repair, if a sign becomes a danger or deemed unsafe, it may be removed.

B. Prohibited locations: In public right-of-way, except where specifically allowed; on public property; in a manner that interferes with ADA access; creates a sight visibility issue; attached to trees, shrubs, etc; See Section 6.07 B. 2. for complete list.

C. Prohibited signs: Off-site signs, except as specifically allowed; banners, balloons, flags, except as specifically allowed; pennants, streamers, feather signs, searchlights, strobe lights, beacons, inflatable signs.

F. Temporary signs may not be illuminated.

G. Signs shall be made of durable materials and maintained in good repair.

Most temporary signs must be placed on private property and not in the right-of-way along the street. MAPS have been prepared to help identify the location of any private property near the street where a sign could be placed.

These [MAPS](#) are not definitive, but give a good idea of where signs could be placed. Contact Planning or Code Enforcement staff for a review of specific locations. 480-816-5100.
