<b>Streetscape - Avenue of the Fountains Design</b>			Beautiful instagram photos- FH growth. Restrooms on the Avenue. NO - sidewalks are ok as is ; stripe the street so there are clearly 2 lanes; currently you
Widen the sidewalks by narrowing drive lanes	1	1	don't know if it is one or two.
Adding more locations for street trees	20	24	
Amending ordinances to allow for sidewalk cafes	45	13	
Adding street furniture	6	7	
Creating gathering locations	6	17	
Encouraging building awnings over the sidewalks	7	13	
Adding dark sky compliant lighting	25	20	
Adding parking adjacent to the Linear Park	3	3	
			Add HAWK at existing roundabout; Add reflector on inside of roundabout circle; More bike racks;
<b>Streetscape – Connectivity</b>			
Filling sidewalk gaps	10	12	
Improving ADA access	5	8	
Providing more enhances mid-block crosswalks	0	8	
Working with Plat 208 to improve connections form parking areas to streets	2	4	
Providing pedestrian bridges to cross Saguaro	25	9	NO, its not that hard to cross at stree level - TOO Expensive for value gained; Pedestrian bridge ugly; not in favor of pedestrian bridge; UGLY will ruin the look of the fountain
Providing a speed table (raise intersection) at Avenue of the Fountains and Saguaro	8	10	
Providing a pedestrian connection from Paul Nordin to the Community Center	8	9	
Constructing a roundabout at Saguaro and Avenue of the Fountains	33	20	Roundabouts are unsafe for pedestrians, purpose is to keep traffic flowing; Do NOT add roundabout on Saguaro and Avenue; worst idea ever; TUNNEL (received 9 hearts and a circle); It's a great "Town". Let's not perfect it out of existence. Consider annexation to Scottsdale.
Installing signalized crosswalks at appropriate locations on Saguaro	12	11	
			Adding a time for lights to be shut off? Light pollution at night? I like that FH is a "dark sky" town.
<b>Streetscape - Lighting</b>			
Encourage businesses on the Avenue to install lights under canopies or add string lights	5	16	
Adding bollard lighting along sidewalks	9	5	Only if dark sky compliant. The ones around the lake are terrible.
Adding solar powered streetlights	4	13	
Adding festive lighting to the entertainment area on the Avenue	10	10	

Providing lighting at street crossings	19	13
Adding lights at the base of trees	7	12 Might defeat dark sky, put lights pointing down the tree.

**Streetscape - Parking**

Installing directional color-coded signs for Plat 208 parking lots	0	2
Implementing time-limited parking	0	4
Providing additional street parking	3	2
Building a parking garage	16	9
During events the Town should	0	2
Establish remote parking lots with shuttle service (i.e. Target, High School)	24	26
Utilize parking valet service in Plat 208	0	4 Who would pay for it?

Add more parking spots for disabled people, especially for large events; Remove excess parking lots -waste of space - creates Heat use remote/valet parking

**Streetscape - Parkview Improvements**

Adding 6'-wide sidewalks on both sides of Parkview from La Montana to Saguaro	3	7
Adding 10'-wide sidewalks with street trees on both sides of Parkview from LaMontana to Saguaro	25	24
Adding mid-block crosswalks in Parkview to connect businesses on each side of the street	1	7
Adding a median in the middle of the street to narrow travel lanes	1	6 Why narrow travel lanes?
Converting on-street parking to angled parking	6	12
Adding curb extensions at the corners to narrow drive lanes and improve pedestrian circulation	2	5

Don't need too many trees - could be a visual obstruction to business signage. Doesn't need to be so wide just a decent sidewalk on both sides and some "beautifying". Need space for business A-frames, flow of traffic and the parking areas should remain - very important. Need connectivity to Goo Living Greens, Tap House, Phils, Sun Baked Bakery.

**Streetscape - Placemaking**

Expanding the use of banners	1	7
Installing unique street light poles and fixtures	7	13 Don't need unique, make sure dark sky compliant

Needs a "true" downtown square or more defined, connected downtown that is walkable. Consolidated the statues into one rea - or better yet, make a few very significant and get rid of the rest; liken it to havind one fountain - it is significant- 10 fountains not su much. If we want to attract more businesses need to update - fun - energizing, Trader Joes (a heart and two dots).

Creating a program to encourage and facilitate murals on building walls	4	18	Does the high school have an art program or student government in need of community service?
Continuing to paint murals on transformer boxes	13	38	
Creating small, unique gathering places	11	13	
Continuing the public art program	27	18	
<b>Streetscape - Pocket Parks</b>			
Hiring a consultant to prepare designs	12	24	
Purchasing the property from Plat 208	11	21	
Encouraging Plat 208 to redevelop these properties	17	15	
<b>Streetscape - Trees and Shade</b>			
Replace existing palm trees with shade trees	14	18	Instagram: @treesmatteraz, local non-profit dedicated to planting trees. Why would you remove all the beautiful palm trees to replace with all garbage trees and have more debris and upkeep? FH doesn't keep up on the landscaping very well throughout the town, weeds/overgrown. More trees less circus tents and other nylon nets; trees = nature& are better for the environment (two dots).
Adding more trees along the Avenue	32	17	
Developing and implementing a street tree program for Parkview and Verde River	25	23	
Working with existing businesses to provide shade through awnings and umbrellas	8	28	
Providing shade over outdoor gathering areas	15	29	
<b>Streetscape - Wayfinding</b>			
Using unique street signs to identify and distinguish the downtown	6	15	Several hearts and dots on the comments, especially those for needs identity and make a recognizable downtown
Implementing the Town's wayfinding signage program	10	8	
Creating entry features to designate the downtown area	15	14	
Establishing signs to designate the sub-areas within the downtown area	0	2	15 I love the signs that have fountains on them
Providing pedestrian oriented signage to direct people to businesses	4	14	8 Hanging projection signs for businesses on the Avenue
<b>Zoning &amp; Land Use - Avenue of the Fountains</b>			
There were hearts and circles on the comments side for: Establish entertainment district; longer hours of operations; Many on more restaurants and retail use on Avenue; pedestrian oriented development on Avenue			

Requiring ground floor businesses to be commercial (retail, restaurant) increasing the allowed residential density by right on upper floors from 8 units per acre to 12 units per acre	43	Businesses besides retain should be allowed, i.e. law office, title company, real estate, etc. NOPE (not clear if the NOPE is from the same person as the original note)
Establishing minimum standards for the amount of transparency for ground floors	4	6
Establishing "build to" lines for new buildings	0	2 Why, what would it accomplish
Requiring awnings or canopies on storefronts	0	0
Providing standards for establishing sidewalk cafes and encouraging the development of these uses	2	20 No - Awnings can get ugly if not properly maintained. Diversity is good
Providing a higher degree of maintenance of vacant properties	33	19
Creating opportunities for temporary usage of vacant properties along the Avenue	13	19
	5	4

A lot of circles on the comments. Next to the comment on no consistent aesthetic downtown was this comment: "Have you ever seen a downtown that has consistency. Difference is nice Diversity is good." Trader Joes, more stores, more commercial, more light. Keep FH beautiful & homey - traditions. Require paint on buildings, bare concrete on apartment is ugly.

**Zoning & Land Use - Façade Improvements**

Allowing for more open air concepts with buildings	14	15
Encouraging front patio usage	33	25
Establishing a façade improvement program	13	24
Developing downtown design guidelines for buildings	7	29
Developing downtown design guidelines for signs	0	21

Let property owners design uses. Comments that received some stickers include needs more walkability, vacant land maintenance, more green spaces

**Zoning & Land Use - Palisades**

Focusing on medical and professional offices	4	18
Establishing areas for specific usage of commercial and non-commercial	1	6
Creating opportunities for more medical/science uses	2	5
Allowing for more professional, non-commercial usage	9	4
Working with property owners to create unifying signage and branding	6	17

I want movie theater! I want boat rides on the fountain. Comments that received stickers included vacant property maintenance and more green space

**Zoning & Land Use - Parkview and Verde River, Plat 208**

Allowing for more mixed use/residential options	18	11
Allowing upper floor residential at 12 units per acre by right	12	12
Encouraging usage for a wide range of businesses	11	7
Providing a higher degree of maintenance for vacant properties	18	22
Allowing for temporary uses of vacant properties	3	10
Encouraging residential infill development	5	10
Adopting design guidelines for building facades	4	20
<b>Zoning &amp; Land Use - Use and Maintenance of Vacant Land</b>		
Allowing temporary usage of vacant lots	4	29
Setting higher standards for property maintenance	16	33
Removing obstacles to development, such as providing a wider mix of uses	36	10
Requiring property owners to install screening around the frontage of lots	0	5 Only if there is some decent standard
