# introduction

The Town of Fountain Hills overlooks the Verde River Valley and the east valley of the metro Phoenix area. Once thought to be in a remote location, Fountain Hills now enjoys easy connections to its neighbors, the City of Scottsdale, the City of Mesa, Fort McDowell Yavapai Nation and the Salt River Pima-Maricopa Indian Community, as well as Phoenix and the rest of the Valley of the Sun.

Fountain Hills is a master planned community. Robert P. McCullough of McCullough Properties planned and marketed the development which began in 1970. The Town officially incorporated in December 1989.

The crown jewel of the community is the 65 acre Fountain Park featuring the world famous fountain. It is the world's tallest continuously operating fountain nestled in the center of a large man-made lake. The plume of water rises up to 560 feet on special occasions and normally rises 330 feet into the air from a concrete water lily sculpture. The fountain operates 7 days a week, on the hour for 15 minutes from 9 a.m. and 9 p.m.

Fountain Hills is a dynamic community teaming with pride for its cultural and recreational amenities. The Town boasts numerous active parks with tennis courts, baseball, football and soccer fields, basketball courts, pickle ball courts, a dog park, a skate park and sand volleyball courts. Outdoor enthusiasts have easy access to hiking and biking opportunities, including the Town's 822-acre McDowell Mountain Preserve. Golf enthusiasts from around the globe enjoy playing on our four 18-hole picturesque and challenging courses.

With unparalleled scenic views of the surrounding rugged mountains, and the serenity of the Sonoran Desert, the Town carefully protects the native flora, fauna and scenic vistas. It is not unusual to see bobcats, javelina, jackrabbits or coyotes wandering the fringes of the community. Quail and roadrunners thrive as well in the washes and among the natural vegetation.

Fountain Hills' collection of public art, which now stands at over 150 pieces, is the envy of Arizona and provides interesting and inviting opportunities to tour the community. While here, visitors can also enjoy the many unique restaurants and shops along the Avenue of the Fountains, and throughout the town.

Amongst the natural beauty, a diversity of businesses thrive. Fountain Hills is home to many niche manufacturing companies and software development firms. Attracted by the ability to tap into the region's highly skilled and educated workforce, and the availability of very desirable commercial space, Fountain Hills offers a welcoming, pro-business environment for new businesses.

The Town is pleased to present this Land Use Inventory & Statistical Report which is designed to provide current statistical information in an easy to read and digest format. This report also includes a look at historical data which can be used to garner demographic and development trends.

# current population

Based upon the July 1, 2020 US Census, American Community Survey population estimate figure of 25,167, Fountain Hills has an average of 1,239 people per square mile, or 1.9 people per acre.

Fountain Hills' low population density is a major reason it is such a desirable place to live. Unlike other regions of the Valley, one can dine, play, and commute, without congestion.

Fountain Hills' land is currently developed at an average density of 2.2 dwelling units per acre for single family homes and 8.0 units per acre for multi-family housing.

At the end of 2022, there were 963 vacant single family lots and 67 vacant multi-family lots.

If Fountain Hills continues to develop at a similar rate, the population is estimated to reach 34,700 at build-out around the year 2040.

Population by Gender & Age	Male	Female	Age Group												TOTAL	
			0-4 Years old	5-9 Years old	10-14 Years old	15-19 Years old	20-24 Years old	25-34 Years old	35-44 Years old	45-54 Years old	55-59 Years old	60-64 Years old	65-74 Years old	75-84 Years old	85 Years & older

# town-wide building permit data

Land within the Town of Fountain Hills has been largely developed. While building activity in Fountain Hills has been on the upswing since 2016 and continuing into 2022, particularly with multi-family housing, and luxury housing construction, the total building permits issued is still below the peak in the year 1998. The following charts show the historical building permit activity from the year 1998 forward. Most recently, the Town continues to experience a shift from new construction to remodeling.

To guarantee the high quality lifestyle that Fountain Hills' residents have come to appreciate, the Town has adopted standards for grading, hillside preservation, and low water use landscaping. All proposed developments must meet these standards before receiving approval from the Town.

# municipal & utility services

The Town of Fountain Hills provides a wide range of services and facilities to Town residents including fire protection, emergency medical services, law enforcement, a library, a community center, public information, economic development, building inspection, code enforcement, planning, parks, tourism recreational classes and many other governmental and non-governmental services.

The Fountain Hills Municipal Complex consists of the Town Hall, Library, River of Time Museum, Centennial Circle, Public Art, Community Garden and Community Center. Town Hall includes the Town government as well as the Maricopa County Sheriff's office and the Municipal Court. The Town of Fountain Hills Community Center provides space for corporate meetings, local civic programming, art and educational classes, black tie events and wedding receptions, as well as providing additional meeting rooms. # fountain hills schools

The Fountain Hills Unified School District has earned a reputation for excellent academic programs, noteworthy student achievement, and high levels of parent and community involvement. Over the past several years the district has earned respect throughout the state as a small, friendly, and high achieving system with well-trained and motivated staff ([www.fountainhillsschools.org](http://www.fountainhillsschools.org)).

# fountain hills community services department

The Town of Fountain Hills Community Services Department is dedicated to supporting over 119 acres of park land throughout Fountain Hills by professionally maintaining and operating facilities and amenities to enhance the beauty, value and quality of each park's environment.

Fountain Hills continues to provide quality recreational opportunities, safe and clean parks, and superior park maintenance and beautification. Each of the parks in the Town's park system is in a different stage of development. Development is based on Master Plans that were developed specific to each park and approved by both the Parks and Recreation Commission and the Town Council. Golden Eagle Park was completed per the Master Plan in 1998. The Desert Vista Park was completed per the master plan in 2008. An update of the Four Peaks Park master plan began in the fall of 2012. Fountain Park's master plan was approved in 1998 and improvements have been ongoing since 2000, Fountain Park Master Plan was updated in 2016. A new destination called The Avenue Linear Park, is an enhancement project including a pedestrian-friendly hub of activity on our main street. The Fountain Hills Community Garden is a volunteer effort to create a nurturing garden space where we build a sense of community, provide gardening lessons for children and adults, grow nutritious produce and beautify our town.

Desert Vista Park - 12 ac  
11800 North Desert Vista

# public art

## Index compiled by Jerry Miles and Jean Linzer

The pieces listed in this inventory include works of art owned by the Town of Fountain Hills and on public display, pieces owned by the Library Association and the Historical Society which are on public display, pieces purchased with Percent for Art funds and other works acquired by public donations. Photos and art within the Town offices are not listed because they are not immediately accessible by the public. Private pieces are also not listed, even though they may be open to public view.

The Remington piece in the Museum lobby is listed, but not those within the museum itself, again because the ones within the museum are not immediately accessible to the public without the payment of a fee. We have listed only the four Ron Head memorial plaques collectively and the Ron Head soldier in the Veterans' Memorial but it could be argued that the cannon and the four Ron Head murals individually should also be considered individual works of public art.

# land use inventory

In addition to providing current information concerning present land use, the land use inventory indicates vacant parcels that are likely to come under new or increased growth pressures as the community nears buildout. In so doing, the inventory provides a useful guide for the Town in regard to land acquisitions for public facilities such as fire stations, schools, playgrounds, and similar uses. The land use inventory is also useful to the business sector by providing a selection of optimum site locations for the construction of commercial buildings and residential developments. Hence, the land use inventory allows the Town to anticipate the development potential of the business sector.

As data is analyzed year after year, some discrepancies are discovered and corrected. This continuous review necessarily revises some of the land-use category area totals in order to increase the accuracy of this report.
